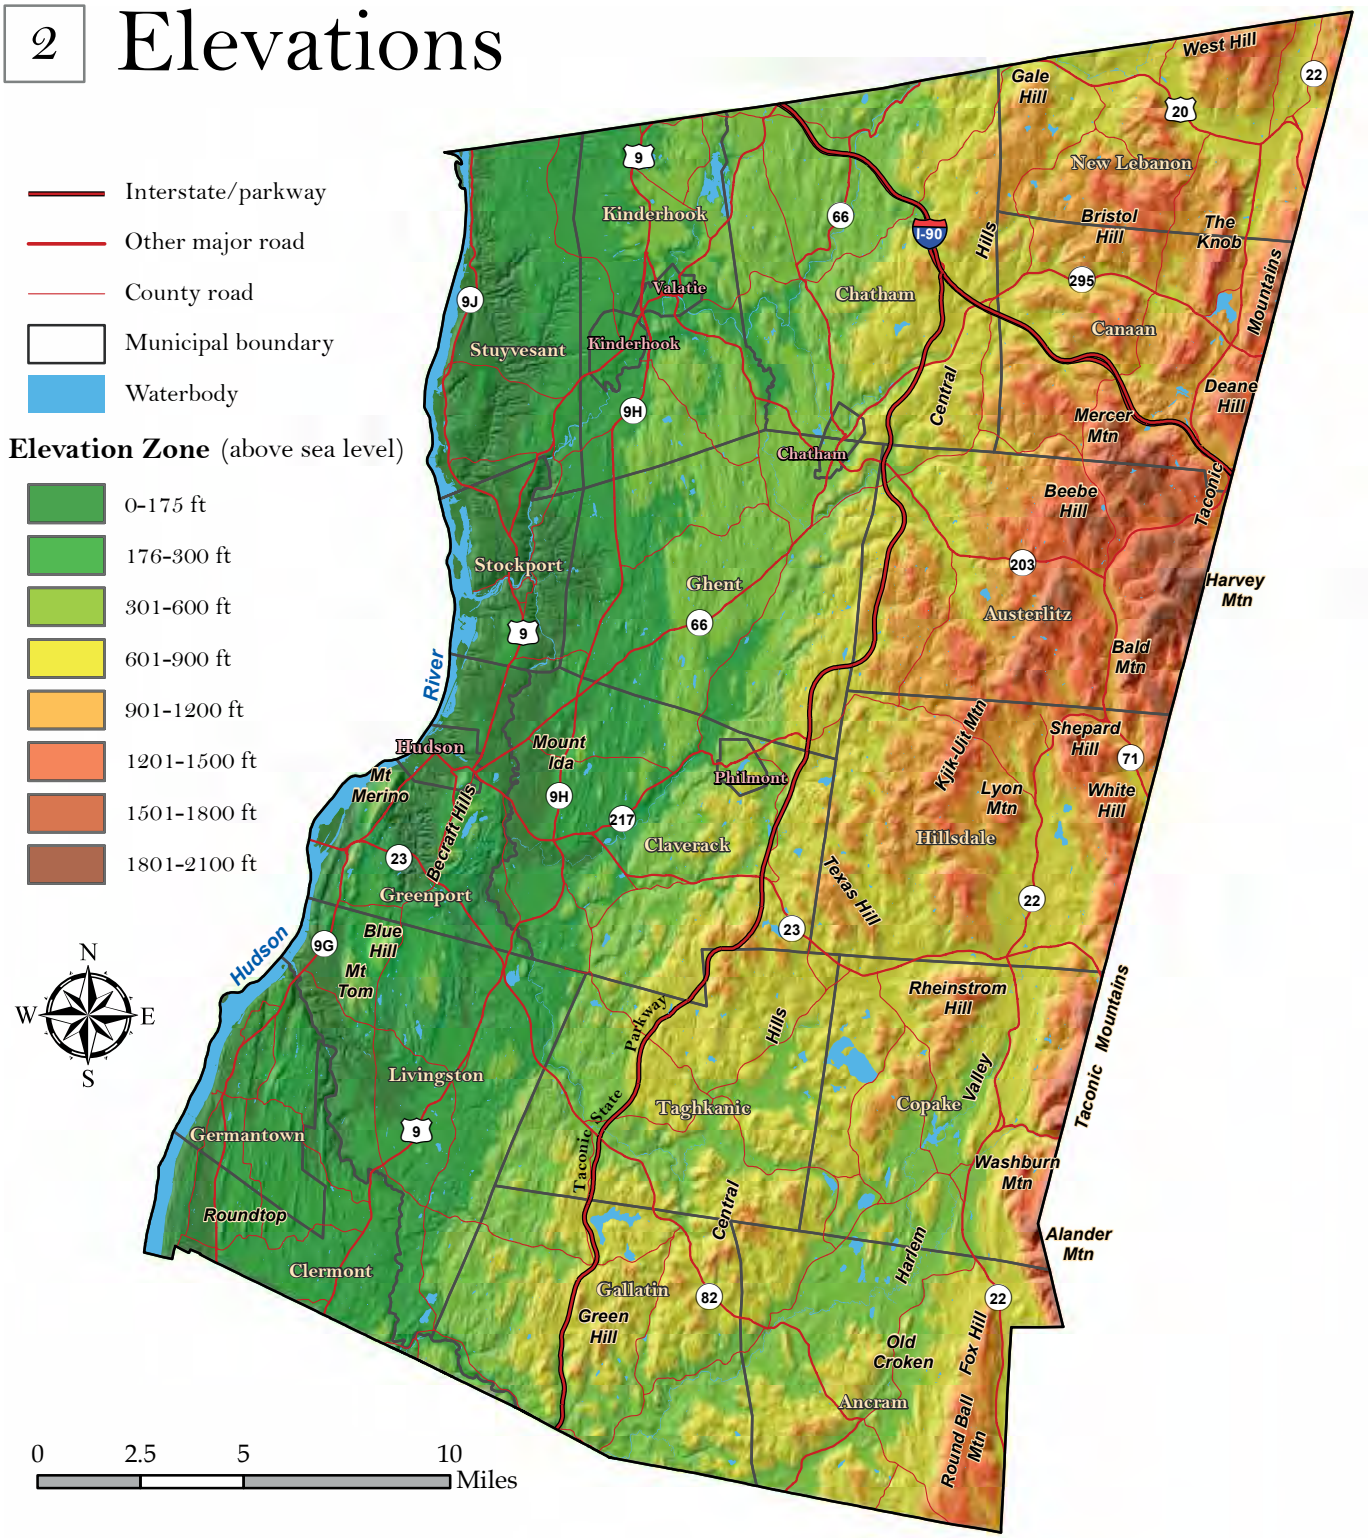
2 Elevations



Data Sources: Elevation zones were classified from a US Geological Survey (USGS) digital elevation model (DEM) by Hudsonia. Basemap shows topographic relief; this hillshade layer was created by the Cornell Cooperative Extension Dutchess County GIS lab from from the same USGS DEM. Waterbodies data from the National Hydrography Dataset, USGS, 2013, available from nhd.usgs.gov. Roads selected from the AllRoads dataset, New York GIS Program Office, 2017, available from gis.ny.gov. Municipal boundaries created by NYS Office of Information Technology Services, 2017, available from gis.ny.gov.
Map created by Hudsonia Ltd., Annandale, NY.
