
Data Sources: Major watersheds and sub-basins from the Natural Resources Conservation Service's Watershed Boundary Dataset (at the 10-digit and 12-digit Hydrologic Unit Code levels, respectively), available from datagateway.nrcs.usda.gov. Hudsonia renamed some sub-basins to be more useful for the Columbia County NRI. Streams and waterbodies data from the National Hydrography Dataset, US Geological Survey, 2013, available from nhd.usgs.gov. For roads and boundaries data sources see Figure 1. Map created by Hudsonia Ltd., Annandale, NY.
